1. Attached please find three copies of a questionnaire compiled by [REDACTED] Communications for proposed completion by survey teams investigating deployment sites. Our apologies for the delay in submission. 25X1A2g

2. Please note that this questionnaire is considered by [REDACTED] as a preliminary version, with the expectation that several further revisions will be necessary before a final paper can be developed. This issue shows, primarily, that there are many questions which are unanswerable at a given location, the approach taken here being one of "better too much than too little".

3. Your suggestions for additions, deletions, or changes will be welcomed.
